max payout  
per share  
n/a

If this card is in use in phase 10 or after a share has been bought in phase 3, the game ends immediately. In phase 9, assume there is an infinite supply of this card. Each corporation reaching \$100 share price after the first returns its old share price card without taking a new one. Its shares have a value of \$100 at the end of the game.
